1. Mu M, Inoue H, Mao D, Sogawa N, Goda S. β1 Integrin/FAK signaling regulates interleukin-8 production in human gingival epithelial Ca9-22 cells. *J Oral Biosci* 2025;**67**(**1**):doi: 10.1016/j.job.2025.100615.

2. Zhang R, Sogawa N, Mao D, Inoue H, Goda S. Signaling pathways of pro-IL-1β production induced by mechanical stress in gingival epithelial cells. *J Oral Biosci* 2025;**67**(**1**):doi: 10.1016/j.job.2025.100626.

3. Sugimoto W, Inoue H, Sogawa N, Goda S, Nishiura A. MDP/NOD2 enhances RANKL-induced osteoclast differentiation of RAW264.7 cells. *J Oral Biosci* 2025;**67**(**1**):doi: 10.1016/j.job.2025.100630.

4. Yamashita K, Inoue H, Sogawa N, Goda S. TNF-α regulates the production of IL-8 in human oral epithelial cells. *J Osaka Dent Univ* 2025;**59**(**1**):37-42.

5. Zhang H, Inoue H, Sogawa N, Tanimoto H, Iwata N, Goda S, Yamamoto K. Effect of γ-D-glutamyl-meso-diaminopimelic acid (iE-DAP) on tissue inhibitor of metalloproteinase-1 production in human dental pulp fibroblast-like cells. *J Osaka Dent Univ* 2025;**59**(**1**):151-156.

6. Inoue H, Li C, Hou X, Iito T, Ogawa Y, Kobuchi S, Shintani M, Nishioka M, Wu G, Xie L, Li L, Wang Z, Sakai Y, Fu Y, Hou Y, Chen Y, He J, Liu D, Matsuo S, Sogawa N. Tumor necrosis factor-α promotes interleukin-6 production in human dental pulp fibroblast-like cells. *J Osaka Dent Univ* 2025;**59**(**2**):263-268.

著書

1. 合田 征司, 井上 博, 寒川 延子. 共著. ビジュアル生理学・口腔生理学. 東京:学建書院 2025:232-337.
